Who We Are

Sustainable Eastern Ontario is a network organization that fosters partnerships and collaborations on sustainability activities throughout Eastern Ontario.

We do this by connecting sustainability groups together, developing strategic collaborations across the sector, building capacity of administration and operations, and celebrating successes across the region. We are raising the profile and capacity of sustainability activities and telling the story of transition and resilience in our community.

Connecting	341	Groups, institutions, and businesses are part of the network
Collaborating		
Capacity-Building		
Celebrating	154	Non-profit ENGOs are part of the NCENN
	25	Capacity Check-ups are in place for groups with capacity support grants

"Sustainable Eastern Ontario helps foster collaboration."

Nonprofit Network

Why an ENGO network in this region?

- Launched in 2008 by sustainability groups in Ottawa then expanded across Eastern Ontario!
- A space to share with each other (stories, learnings, best practices, tools, contacts, etc)
- A space to support each other
- To encourage partnerships
- To collaborate on fundraising efforts
- To share resources across Eastern Ontario
